

Pre-Conference Intensive: Using Health IT Tools: The What, the Why and the How Part I

AGENDA

This two-part intensive begins on Saturday and concludes on Sunday.

You know IT and data analytics are an important consideration for health care partners when contracting with community-based organizations, but what do you need to know to get started? How can you ensure that your IT investment is maximized and meets your business needs now and in the future? Learn from your peers who are navigating the complexities of choosing an IT system; who negotiated data-sharing agreements; and who have worked with CMS to use health IT tools to improve care coordination. Dive in to this intensive session that will provide you with decision-making support for your next technology investment and ready your agency for the future!
